REASON FOR WITHDRAWAL

This review was withdrawn, effective from Issue 3, 2009, because it is out-of-date. Discussions are ongoing for a replacement review with updated methods and an expanded scope that includes biopsychosocial rehabilitation. The protocol for this review should be available in early 2010.

WHAT'S NEW

Last assessed as up-to-date: 29 September 2005.

| Date | Event | Description |
|-------------|---------|------------------------------------|
| 11 May 2009 | Amended | Review withdrawn from publication. |

HISTORY

Protocol first published: Issue 1, 2002

Review first published: Issue 1, 2004

| Date | Event | Description |
|---------------|--|---|
| 6 June 2008 | Amended | Converted to new review format. |
| 11 April 2006 | New citation required and conclusions have changed | First substantive update (Issue 3, 2006) 1. Title has been changed to “Ergonomic and physiotherapeutic interventions for treating work-related complaints of the arm, neck or shoulder in adults” from “Ergonomic and physiotherapeutic interventions for treating upper extremity work related disorders in adults”. 2. Seven new trials included (Ahlgren 2001; Ketola 2002; Klemetti 1997; Omer 2003/2004; van den Heuvel 2003; Viljanen 2003; Ylinen 2003). 3. Adopted ‘levels of evidence’ assessment for all interventions. 4. Conclusions of the review have been changed. |
